**SAFETY PROFESSIONALS**

# Human Capital Event

What did the Paris event discussions bring that is new to the safety profession?

What did you take away from today's event?

What are the next steps for you, and your associated organization / country?

to sustainability

Handwritten notes and signatures on the left side of the board, including the name "Holly" and "CSHS".

Handwritten signature: "Priscilla Medina" with "ASQ" below it.

Handwritten signature: "Alicia" with "S. H. K. M. W." below it.

Handwritten signature: "Kathy" with "CSHS" below it.

Handwritten signature: "Kathy Sachroak" with "CSHS" below it.

# Sustainability

4th Human Capital Paris Workshop

- An organization's human capital includes the skills, knowledge and abilities that workers bring to their work and how they use them. Effective occupational safety and health (OSH) management helps workers safely operate in their work environments, making OSH a foundational element of human capital.
- CSHS is leading the debate on how organizations can better protect and make best use of their people (human capital). By helping workers safely and healthily operate in their work environments underpins overall corporate performance and organizational sustainability.
- Fourth in a series of invite-only workshops under our Human Capital Project. The event was hosted by L'Oréal and supported by the Institution of Occupational Safety and Health (IOSH).
- Key individuals participating in the Human Capital Workshop today have joined us to provide their perspective on the events of the day.

## Quick Summary Take A Ways

- The safety profession has an opportunity to lead the human capital / sustainability discussion
- Each respective partner organization, along with CSSE can lead with 100K practitioners voices around the globe
- CSHS and CSSE are moving to advance the discussion
- Exciting support and continued work on human capital
