

Darshan Gill
Secretary, BC Lower Mainland Chapter
CANADIAN SOCIETY OF SAFETY ENGINEERING

I've been involved with the CSSE since 2015 when I was a student at BCIT. Since then, I've been working in the trucking and transportation industry as a safety professional for the past.

It is not often that I get to spend time with safety professionals from a variety of industries with varying levels of experience. The opportunity to network and meet other safety professionals has been a large part of the value the CSSE continues to provide for me.
